Documentation of disability and support needs.

- Please note the following:
- ✓ These measures apply to students with an IEP or a 504 plan.
 - ✓ The IEP and/or Section 504 plan will not function as sufficient documentation for support services from a college.
 - ✓ Students with attention disorders must show documentation that goes back to prior 7 years of age.

The student's documentation is **missing one or more** of the following elements:

- Performed by a qualified professional
- Uses appropriate testing instruments that emphasize the use of multiple measures. (Enough assessments should be used to completely describe the disability.)
- Includes all sub-test and index scores converted to standards scores and/or age/grade level score.
- Includes a clear statement of the functional limitations of the disability.
- Generally the information is 2 years old or older

1

The student's documentation contains **all** the following elements:

- Performed by a qualified professional
- Uses appropriate testing instruments that emphasize the use of multiple measures. (Enough assessments should be used to completely describe the disability.)
- Includes all sub-test and index scores converted to standards scores and/or age/grade level score.
- Includes a clear statement of the functional limitations of the disability.
- Generally the information is 2 years old or less.

2

The student's documentation contains **all** the following elements:

- Performed by a qualified professional
- Uses appropriate testing instruments that emphasize the use of multiple measures. (Enough assessments should be used to completely describe the disability.)
- Includes all sub-test and index scores converted to standards scores and/or age/grade level score.
- Includes a clear statement of the functional limitations of the disability.
- Includes strategies and recommendations that have a clear basis in documentation
- Includes strategies and recommendations that have been tried and work.
- Generally the information is 2 years old or less.
- Shows the history of previous testing
- Provides information about timed and untimed sub-tests.
- Be legibly handwritten or typed and signed by the professional who performed the assessment.

3

The student's documentation contains **all** the following elements:

- Performed by a qualified professional
- Uses appropriate testing instruments that emphasize the use of multiple measures. (Enough assessments should be used to completely describe the disability.)
- Includes ruling out instruments.
- Includes all sub-test and index scores converted to standards scores and/or age/grade level score.
- Includes a clear statement of the functional limitations of the disability.
- Includes strategies and recommendations that have a clear basis in documentation
- Includes strategies and recommendations that have been tried and work.
- Generally the information is 2 years old or less.
- Shows the history of previous testing
- Social history
- Behaviors during testing.
- Provides information about timed and untimed sub-tests.
- Be typed and signed by the professional who performed the assessment.

Chart your profile. Indicate the rating for each category and connect the dots

Social Skills: Personal	Social Skills: Academic	Self - Awareness	Student uses multi-path planning to address future goals	Student's knowledge of their place in a legal framework	Documentation of disability and support needs.	Literacy	Study Skills: Acquiring and manipulating information	Study Skills: Using and producing Information	College Admissions Testing Preparation	Student has demonstrated competency in a rigorous curriculum
----------------------------	----------------------------	---------------------	--	---	--	----------	---	--	---	--

Please note:

- ✓ It is not expected that any student would rate 4 in every category. A “wavy” line would be what is expected.
- ✓ Students whose skill set is in the 3, 4 range would seem to be very well prepared to attend college and have an increased probability to graduate college. Dips into the 1, 2 range will identify skills that require focused attention. If the dip is due to a disability, it indicate the area(s) where supports and accommodations will need to be focused.
- ✓ Students whose profile stays primarily in the 1, 2 range should talk with their parents and guidance counselor about strategies to improve their skill set and alternate paths to achieve their goals.
